

GL

Decca introduces GL, an elegant expression of classic furniture design reinterpreted for the modern office by renowned designer Gary Lee. Comprised of versatile components for working with and storing papers and tools, GL is thoughtfully designed for the way people really work and the ongoing need to organize, store and access documents and files. Clean lines and refined details endow the collection with a contemporary architectural presence suited to lobby and reception areas, as well as the private office in law firms, financial groups and other professional or corporate environments. Reflecting the close attention to detail that marks Gary Lee's celebrated work, GL also upholds the principles of quality and craft that distinguish Decca furniture.

Storage components and work surfaces may be configured to suit virtually any enclosed or open space and diverse functional requirements.
Shown in Quarter Cut, North American Walnut, Brushed Stainless Steel.
