COMPASS

## A Natural Balance.

COMPASS | BY GARY LEE PARTNERS

Compass captures the essence of continuity: as in the shape of the circle and the cycle of nature. The textured front of the collection recalls flowing water and the peaks and valleys of adventurous places. This organic detailing is captured within luscious materials that wrap the fundamental form. The overall experience is one of departure and return, discovery and relaxation. Compass is the balance of these things.

## COMPASS

The textured and engaging materials define Compass as both material and functional. The objects are designed to stand alone, but their envelopes create variety for customization and intricacy.

- Standard or sculpted door face
- Veneer, lacquer, or laser cut metal pattern
- Concealed specialty storage
- Touch latch doors to maintain fluidity of line
- Recessed legs to create the illusion that it is floating for a more minimalist view

LASER CUT METAL PATTERN

#### ABOUT GARY LEE PARTNERS

Gary Lee Partners is an independent interior design collective that harnesses the power of space to elevate how people think, work, and live in the physical environment. Since 1993, the firm's creativity has contributed to the success of some of the world's most respected organizations and created a sense of place for residents around the globe.

As a collective of divergent thinkers with unique backgrounds, experiences and talents—their clients' objectives drive everything they do. They are problem solvers, strategists, artists, but above all, they are partners.
