GAIT

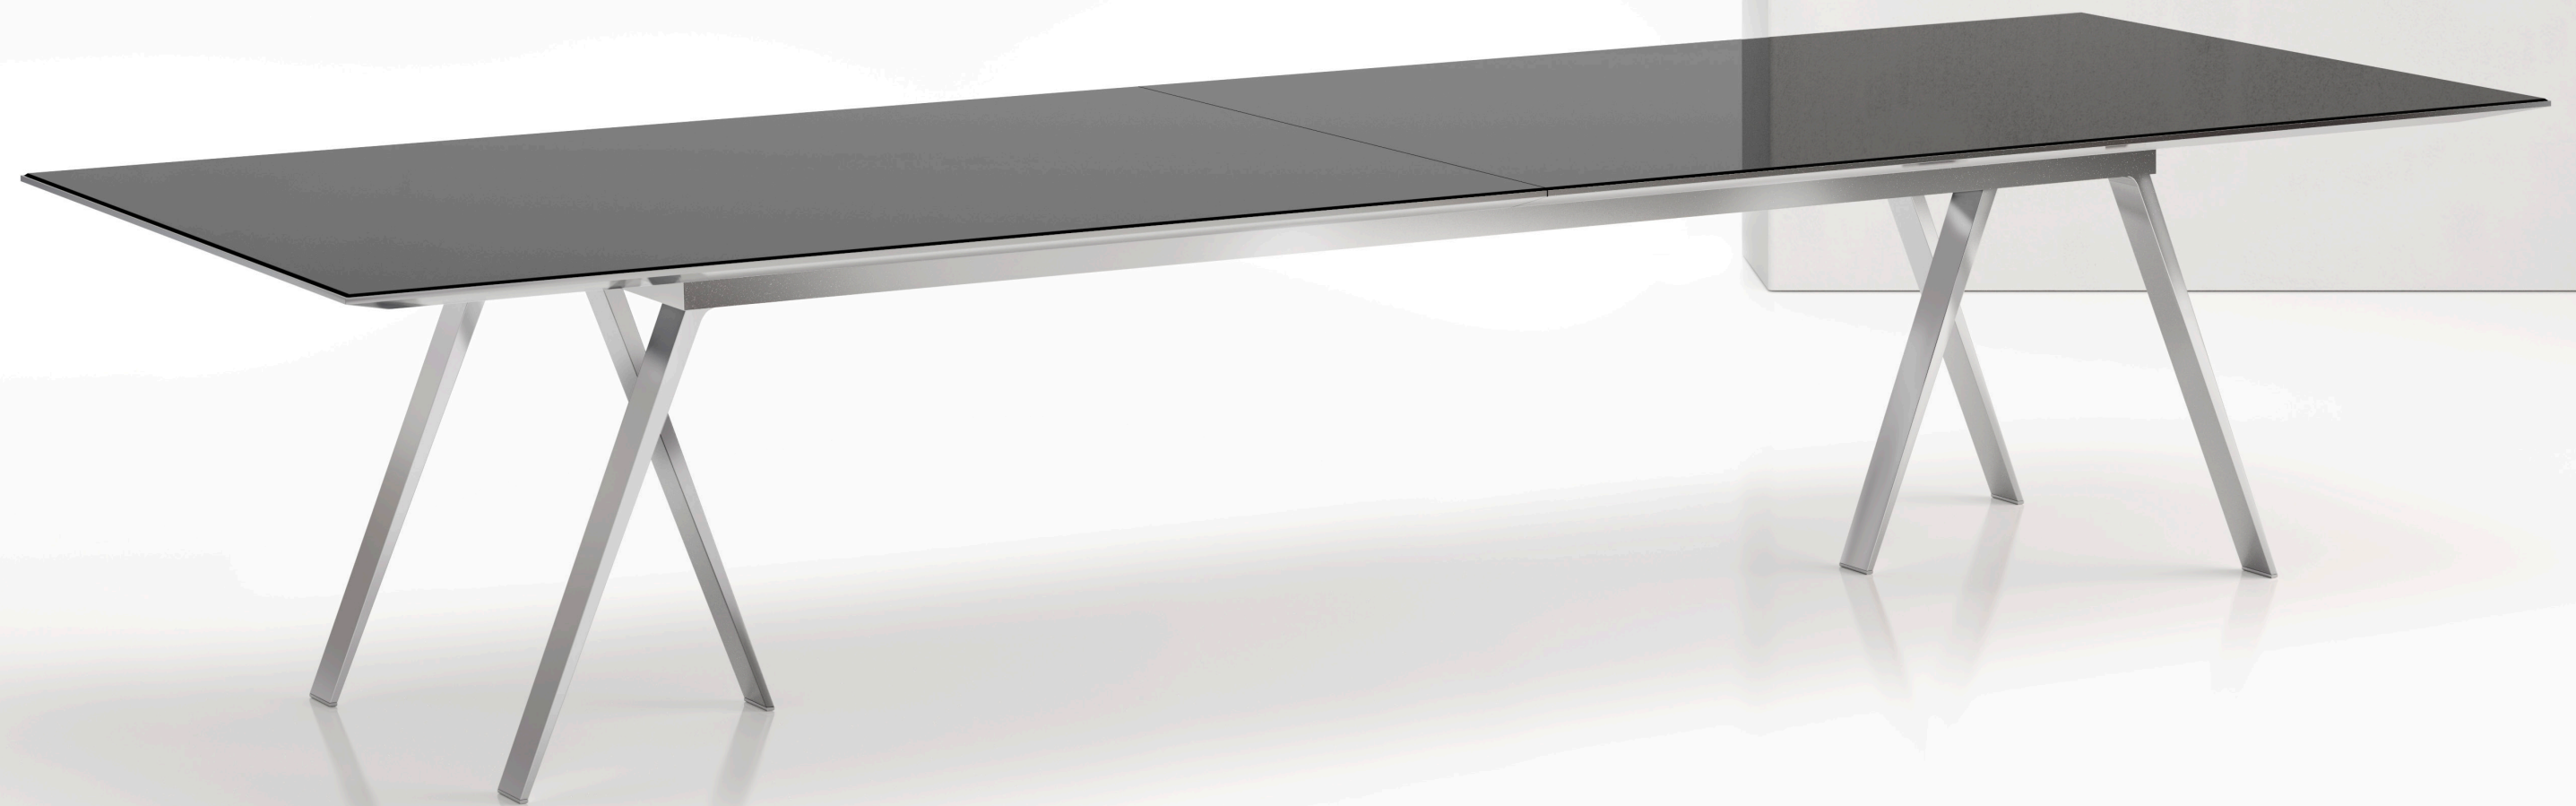

## Pure Form, Advanced Function.

GAIT | BY ERIN RUBY

GAIT Conference Series and GAIT Modular Series work together as universal office system comprised of freestanding tables, desks and workbenches, as well as open and closed storage, casegoods and seating. Designed by Erin Ruby, each element brings an intelligent minimalist point of view to an infinite variety of configurations for the modern workplace.

GAIT CONFERENCE

Step up to GAIT Conference, a collection of exquisitely scaled tables and credenzas with delicate leg modules evoking mid-stride movement. Inspired by reductive design, the GAIT table is distilled to its essence and maintains its slim form, complimenting a wide array of interior aesthetics.

- Elegant two, three + four leg tables.
- Innovative cap-and-sleeve structure allows for leveling at top of leg.
- Rectangular, square + round table formats.
- Veneer, glass + solid surface tops.
- Credenzas in low, standard + buffet height with AV, refrigerator, accessory functionality.
- Credenzas finely crafted in veneer or lacquer.
- Metal legs on tables + credenzas available in a variety of stainless steel, brushed metal + powder coated metal finish colors.

## GAIT MODULAR

An evolution of the elegant GAIT Conference series, GAIT Modular was created to address diverse needs across the spectrum of modern workplace settings. The system is offered as a 'kit of parts' that allows for customized solutions and an almost infinite variety of configurations. Plug-and-play modules provide connection as required.

- Tabletops are offered in veneer, glass + an array of solid surface colors.
- Cases are finished with FSC certified veneer or a durable water-based lacquer, with optional glass or solid surface tops.
- Frames and legs are offered in a variety of stainless steel, brushed metal + powder coated metal finish colors.

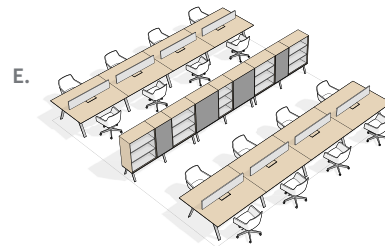

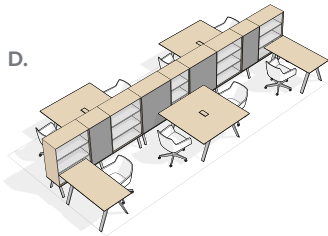

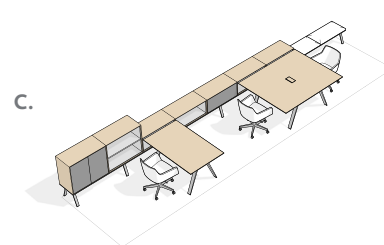

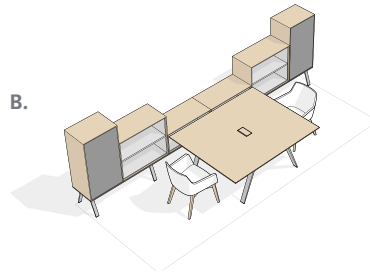

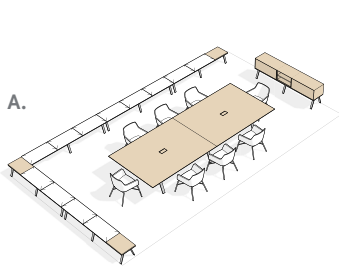

## GAIT APPLICATIONS
